

I first encountered Stephen as a student in 1993; when he was developing a networking/modern computer program for Capilano College. Stephen had taken his own time to acquire knowledge in the Novell NetWare products. He attended classes at Network Specialists where I was an instructor. Stephen completed all the courses we taught and passed all exams with perfect scores.

I would arrive at the school usually at 7 am for an 8 am class and there would be Stephen waiting in his car. We spent many mornings going over the course materials in which he had found errors the previous night. This was done in a most generous way; he was not doing this to boost his image or ego, but rather to help future students and me.

When Steve returned to Capilano College he was the architect that put together a fantastic program at Capilano. I have been an instructor at Capilano for the past few years and have taught in some of his programs and worked with his guidance as a manager in several labs. Stephen is a brilliant and very caring person.

Please feel free to contact me if I can be of further assistance.

Sincerely,

Charles Stephens CNI CNE CTT
