Dear Stephen,

On behalf of the Netherlands Businessmen's Association I would like to thank you very much for a firstclass presentation at our meeting on April 18, 1988.

I am sure that your excellent overviews of the current hardware and software trends in the computer market has many of our members impressed.

I was pleased to notice that the question and answer period before the dinner was obviously not nearly enough and I would like to thank you for staging to answer the many concerns and practical questions of our members.

I would also like to thank Cunge for the caring and efficient way in which she put all the info and hand-out materials together. It will be an excellent reference for many of us, at least for this year.

Warm regards,

J. Timmer
