GOT A QUESTION?**Computing Canada "Blogged Down"—interview with Laura Chappell appearing March 9th**

There's a new editorial feature, [Blogged Down](#) (BD), in [Computing Canada](#) (CC) where editor Patricia MacInnis features an upcoming interview that appears here in the [Canadian IT Managers forum](#) (CIM). Computing Canada is the oldest, and largest bi-weekly business/technology print publication with a large audience including more than 40,000 IT decision makers in medium to large enterprises.

The next interview appearing here on Thursday March 9th is with [Laura Chappell](#) Founder and Senior Protocol/Security Analyst for the [Protocol Analysis Institute](#), LLC. Laura's many speaking engagements include Microsoft's Technet and TechEd Conferences, and the HP Enterprise Technical Symposiums. Laura is also the founder of and Technical Advisor for [www.podbooks.com](#), an Internet-based publishing company focused on packet-level communications and security. Laura also is the vision behind her [Master Library](#) series which encompasses books, self-study courses, video-courses and trace file interpretations. Laura has trained thousands of LAN/WAN administrators, law enforcement officers, engineers, technicians and developers worldwide. Chappell is a member of the High Technology Crime Investigation Association (HTCIA) and an Associate Member of the Institute for Electrical and Electronic Engineers (IEEE) since 1989. Chappell also founded the [Internet Safety for Kids](#) program in 2005.

The first CC Blogged Down interview was with noted software architect and Microsoft MVP, Roger Sessions, that appeared here Jan 10, 2006:

<http://blogs.technet.com/cdnitmanagers/archive/2006/01/10/417165.aspx>

The second CC Blogged Down interview that appeared Feb 7, 2006 was with Bruce Schneier, celebrated cryptologist and security authority.

<http://blogs.technet.com/cdnitmanagers/archive/2006/02/07/418933.aspx>

Laura shares her security best practices and provides her viewpoint on security issues in the upcoming interview. Look for it here...

Thank you,
 Stephen Ibaraki
