Windows Server Longhorn Executive Chat

It's good to keep up with upcoming releases to stay ahead of the curve.

Enjoy!

Stephen Ibaraki, FCIPS, I.S.P.

Network Access Protection in Windows Vista and Windows Server "Longhorn"

Windows Server "Longhorn" provides a policy enforcement platform that helps ensure that computers connecting to a network meet administrator-defined requirements for system health. Administrators can use a combination of policy validation and network isolation components to control network access help improve the security of their infrastructure. Please join Mark Ashida, General Manager of Enterprise Networking Servers at Microsoft and the NAP engineering team for an open discussion on Network Access Protection in Windows Server "Longhorn".
