

**iGEN Chairman Ibaraki Invited to Join Global
Business Leader Delegation to China**

iGEN Chairman Stephen Ibaraki will join an invited delegation of Global Business Leaders visiting China October 28th – November 7th 2010. The invited leaders will travel to a number of cities including Shanghai, Kunshan, Hangzhou, Ningbo, and, Beijing, participating in key events, such as **the 3rd International Outsourcing Business & Development (IOBD) Summit**. The Summit aims to present high-level dialogue and exchanges, to discuss in-depth frontier issues on China and global development, and to provide insights in order to accelerate IT industry development and promote industrial upgrading and restructuring.

Stephen will meet with C-level Executives of large and medium Chinese corporations, key leaders of Chinese ministry of commerce, Chinese service buyers and providers, industrial experts and professionals, and engage in business discussions with both Chinese and multinational companies.

The IOBD Summit will be attended by CEOs and vice-presidents from global Fortune 500 companies and China Fortune 500 companies. Industrial Zone Directors, Band Presidents, chairmen of stock exchanges, chairmen of foundations, envoys to China from various countries, leaders from foreign chambers of commerce in China and a large number of Chinese and foreign media.

With over 4000 Information and Communications Technology (ICT) and Business Professionals in our relationship sphere iGEN Knowledge Solutions is the global leader in custom team based product and solution design and business strategy development. Technical expertise will always be important. But it is the proven ability to lead business strategy development leveraging technology based solutions within a relationship based business environment that differentiates iGEN from the rest.
