Dr. Manfred Reitenspiess of Fujitsu Seimens Computers provides insight into his upcoming presentation at the Wireless & Mobile **WorldExpo**

May 6, 2005, Toronto, Canada - Fujitsu Seimens Computers, and their Director of Business Development of SAFE 4 Continuous Services (SAFE4CS), Dr. Manfred Reitenspiess provides insight into their upcoming presentation at the Wireless & Mobile **WorldExpo**, the Leading Global Event for Wireless & Mobile Enterprise Solutions.

Dr. Reitenspiess' presentation will look at how technology convergence is opening up growth opportunities for component and computer vendors, ISVs, network equipment manufacturers, operators, and enterprise customers. These issues were outlined in a recent interview with Stephen Ibaraki, I.S.P.

To view the full excerpt of Dr. Reitenspiess' interview, please visit <http://www.stephenibaraki.com/cips/v45/mreit.html>

Hear Manfred and other experts speak on the latest enterprise applications and solutions for the wireless and mobile industry - register today at the event website: <http://wirelessandmobile.wowgao.com> More information about Manfred's speaking engagement and conference details is also available on the event website.
