**McAfee and their General Manager, Jack Sebbag, provide sneak peek high profile presentation at the Wireless & Mobile *WorldExpo***

April 12, 2005, Toronto, Canada - Jack Sebbag, General Manager of McAfee Inc., provides a pre presentation at the highly anticipated Wireless & Mobile *WorldExpo*, the Leading Global Event for & Mobile Enterprise Solutions.

In an interview with Stephen Ibaraki, I.S.P., Mr. Sebbag outlined the new security threats faced by consumers and enterprises today, how these new security threats will evolve over time, and what security measures and best practices can be used to overcome them.

To view the full excerpt of Mr. Sebbag's interview, please visit <http://www.stephenibaraki.com/cips/v35/jsebbag.html>

Hear Jack and other experts speak on the latest enterprise applications and solutions for the wireless mobile industry - register today at the event website: <http://wirelessandmobile.wowgao.com> More information about Jack's speaking engagement and conference details is also available on the event website.
